### ***Conditional Acceptance Letter***

*Dear Student,*

*Congratulations! We are pleased to inform you that your application for admission to the International University of Sarajevo has been reviewed by the Admissions Committee. Based on your qualifications and achievements, we are offering you a conditional acceptance to the **master's program in Computer Sciences and Engineering** starting in the **fall semester of the academic year 2024-2025**.*

*Conditional acceptance is provided based on the deliverance of the copies of required documents. However, your acceptance is contingent upon meeting the condition of submission of final official transcripts. These transcripts should confirm the successful completion of all required courses and the awarding of your **bachelor's diploma**. **All documents must be original hard copies. If original documents are in any other language except English, you must bring official English translations as well.***

*Once you have met these conditions, we will be able to confirm your unconditional acceptance to our University. Please ensure that you arrive at the University and submit all required documents by **September 20, 2024**. Upon arrival, you will also have to sign a contract with IUS. Failure to meet these conditions may result in the withdrawal of this conditional acceptance.*

*Please review the acceptance package below, which includes important information regarding enrollment procedures, orientation, payment, and other relevant details. **This letter does not contain information about accommodation, since the room in our dormitories must be booked in advance. Please find their contact details on our website as our dorms are run by a separate management. Housing fee is not included in the faculty fee.** If you have any questions or require further assistance, please do not hesitate to contact our Admissions Office.*

*We are excited to have you join our academic community. Our university offers a vibrant and diverse learning environment, dedicated faculty, and numerous opportunities for personal and professional growth. We believe that you will thrive and make valuable contributions to our campus community. Once again, congratulations!*
