To Whom It May Concern

I am pleased to write this recommendation letter in favor of Mr. Muhammad Waqar for a Ph.D. program in Biological Sciences for Tukiye Scholarship Burslari.

WAQAR is known me for the past four years since I assigned him one of my projects related to the toxicity of tartrazine. During our time together, he displayed excellent skills. He is a dedicated young researcher who takes an active role in all aspects of the research. Waqar's ability to work independently with creativity and enthusiasm helped peers to understand better the collection and processing of sample data.

He can easily adjust herself to a team environment. I hope that the information furnished will be enough to justify Mr. Waqar's suitability for his higher studies.

I heartily endorse him for future endeavors.
