Trimester Grade Point Average (TGPA):

Each course letter grade is converted into the specific number of grade value associated with the grade. Trimester Grade Point Average (TGPA) is calculated by multiplying the grade value of the earned grade by the number of credits for the course and dividing the total grade points by the total number of semester credits earned. The TGPA must be 2.5 or above at the end of every trimester for graduate students.

Cumulative Grade Point Average (CGPA):

CGPA is calculated at the end of the second semester. This up-to-date overall performance (CGPA) is a weighted average calculated as below:

$$CGPA = (c_1g_1 + c_2g_2 + c_3g_3...) / (c_1 + c_2 + c_3 + \dots)$$

Where c_1, c_2, \dots denote credits associated with the courses taken by the student and g_1, g_2, \dots denote grade values of the letter grades earned in the respective courses.

Note:

To graduate a M. Phil. student must achieve the following:

1. CGPA of at least 3.0
2. Only one "C" grade shall be allowed in the entire to pass the program.
3. Completion of the minimum number of required course credit hours with satisfactory grades.
