

Letter of Recommendation
For Turkey scholarship 2024
Tajrbavi High school

2024/1/10

Department of Biology

Dear Turkish scholarship committee,

I am pleased to write this letter of recommendation for Mr. **Ehsanullah**. I highly recommend **He** for the Turkish scholarship of 2024 for bachelor degree.

I have known Mr. **Ehsanullah** for the last 5 years of my teaching at Kandahar **Tajrbavi** Boys High School. As his teacher, I had the opportunity to observe his participation and interaction in class and to evaluate Mr. **Ehsanullah**'s knowledge of the subject matter. He is a truly outstanding student who has accumulated a long list of both academic honors/achievements and extra-curricular activities.

He does his work conscientiously, he always seeks out course work that challenges him, and he has an amazing capacity for fulfilling his responsibilities in a great variety of activities. He is organized in his goal-setting, yet has learned to keep his options open for the future. His accomplishments will no doubt make him a highly recruited individual for the top graduate schools in the country. Intellectually, Mr. **Ehsanullah** is one of the very best students I have ever seen. He has the ability to carry his work and assignment independently. He is extremely disciplined in his work, his analytical skills are highly developed, and he is always thorough in what he does. In the case of his honors thesis, the result promises to be at a level that one would usually associate with graduate work.

I highly recommend **Ehsanullah** for the Scholarship to study in Turkey. I believe his proposed course of study is suitable and builds on his many strengths.

letter of intent

Ehsanullah pasoon

Kandahar Afghanistan.

Dear Sir/Madam

I am writing this letter to inform you of my interest in **Economics** faculty at your university. I have submitted my entire application form with the required documents. I have been awarded study scholarship at Afghan Turk high school Kandahar. Here, I secured fully funded scholarship throughout my career. Considering my family background and pursuing education was nothing but a miracle. Without full scholarships I would not have got this progress.

From my early childhood days, I got influenced by economic issues and the issues of the surrounding people. I saw the days of extreme poverty, I migrated from the war hit areas. We had a far placed village with the scarce life resources.

I had an aim to change the lives of my family, community and hence of the whole society. I came to know that it is extremely hard to change the lives of the people. For this I searched a lot in different areas of study, where I found that social science can be the best option to deal the social problems in a low developed society. After a long research I concluded that Economics is the field to answer social and economic problems. I decided to pursue a career in this field and was eager to generate more ways for the poor and lower middle class of the society.

My interests in choosing Turkey are multidimensional. Turkey has a rich social and economic background. Turkey has a better life expectancy and social indicators. The country has a rich Islamic and social history. At the same time, I am equipped with the Turkish Language and knowledge of Turkish history. Going to Turkey and returning back to home will be a great addition to my personality development.

During my school days I worked in several mathematics competitions and social clubs. I have been awarded with several certificates of performance. I know that mathematics and statistics' background have a great role in deriving economic models and resolving economic problems. I have a good background of advanced Mathematics and Statistics. I hope that running raw data on economic models is the essence of Economics.

I hope that my academic and professional journey makes me a worthy addition to the list of students at your esteemed university. I am looking forward to your contribution in the faculty of Economics as it will equip me with the right knowledge of the field.

Your Sincerely

Ehsanullah pasoon
