

Curriculum Vitae

Professional Summary

As a passionate researcher in Himalayan Studies, I have explored the shared cultural, environmental, and geopolitical dimensions of the Himalayan region, which spans across eight countries. My academic journey has deepened my understanding of South Asia, India's neighborhood policy, and the Himalayas through a subaltern perspective. I aim to contribute to a transboundary narrative of the Himalayas, emphasizing its interconnectedness beyond political borders. My research interests focus on the relationship between human activities, ecology, and the environment, with a particular focus on sustainable development and ecological preservation.

Personal Information

Arindam Dey
