GRADE REPORT INFORMATION

Performances of students in each paper are expressed in terms of marks as well as in Letter Grades. In case of fractions the marks shall be rounded off to nearest integer. The class interval for the purpose of awarding the grades can be arrived at by dividing the difference between the highest mark secured and the minimum pass mark by 6 as there are six passing grades. The formula is given below:

$$K = (X-50)/6$$

Where, K = class interval, X= the highest mark in the subject. The grades are awarded as given in the following table.

Range of Marks in %	Letter Grade	Points for Calculation of CGPA
X to (X-K) + 1	A+	10
(X-K) to (X-2K) + 1	A	9
(X-2K) to (X-3K) + 1	A-	8
(X-3K) to (X-4K) + 1	B+	7
(X-4K) to (X-5K) + 1	B	6
(X-5K) to 50	C	5
Below 50	F	0
Failure due to lack of attendance or absent in the examination	FA	0

K should not be rounded off to less than two decimal places. The numbers given in Range of Marks column, (X-K), (X-2K), (X-3K), etc., can be rounded off to the nearest whole number. In courses where the number of students who have secured 50 marks and above is less than 10, then grading are given based on the following Table:

Range of Marks in %	Letter Grade	Points for Calculation of CGPA
81 - 100	A+	10
71 - 80	A	9
66 - 70	A-	8
61 - 65	B+	7
56 - 60	B	6
50 - 55	C	5
Below 50	F	0
Failure due to lack of attendance or absent in the examination	FA	0

Students with a CGPA of 9.0 and above and did not fail in any of the courses taken by him / her shall be awarded Distinction, A CGPA of 8.0 and above shall be placed in First class. A CGPA of 5.0 or more but less than 6.0 shall be placed in Second class.

Student who has secured less than 50% marks in any paper gets F Grade and he/she is treated as failed in that paper.
