NTA Scores are normalized scores across multi-session papers and are based on the relative performance of all those who appeared for the examination in one session. The marks obtained are converted into a scale ranging from 100 to 0 for each session.

Note:

- The NTA score is not the same as the percentage of marks obtained.
- The NTA Score indicates the percentage of candidates who have scored **EQUAL TO OR BELOW** (same or lower raw scores) a particular candidate in that session.
- The NTA scores of a Candidate have been calculated as follows:

$$(100 \times \text{Number of candidates appeared in the "session" with raw score EQUAL TO OR LESS than the candidate}) \div (\text{Total number of candidates appeared in the "session"})$$
- The NTA Score of the Total is **NOT** an aggregate or average of the NTA Score of an individual subject.
- The candidate's particulars including Category and Person with Disability (PwD) have been indicated as mentioned by the candidate in the online Application Form.
- After the JEE (MAIN) - 2024 Session 2, the ranks of the candidates will be released taking into consideration the best of the two NTA Scores.
- RL means 'Result Later'.
- This electronically generated Score Card is the official Score Card published by the NTA.
- The National Testing Agency has taken due care while uploading the Score Card. However, in case of any inadvertent error, the NTA reserves the right to rectify the same at a later stage.
