ABOUT ME

A highly motivated and dedicated individual with Master's in Sociology, a strong academic background and a National Eligibility Test (NET), Junior Research Fellowship (JRF) qualification. Deep understanding of sociological theories and research methodologies, I am equipped to contribute effectively to academia and social research initiatives. My expertise lies in analyzing complex social issues, conducting qualitative and quantitative research, communicating findings effectively. Passionate about making meaningful contributions to advancing sociological knowledge and addressing societal challenges.

WORK EXPERIENCE

Academic Educator

New Era High School [07/2022 – 12/2023]

City: Patna

Country: India

- Foster an inclusive learning environment that promotes critical thinking, active participation, and respect for diverse perspectives among students.
- Develop and deliver comprehensive lesson plans incorporating sociological theories, concepts, and research methodologies to facilitate student understanding and engagement.
- Utilise effective classroom management strategies to maintain a positive and productive learning atmosphere conducive to student success.
- Support student social and emotional development by fostering empathy, resilience, and ethical decision-making skills.
- Guide students in conducting sociological research projects, including formulating research questions, collecting and analyzing data, and presenting findings.

Written Dissertation (Master's)

Patna University [2018 – 2018]

City: Patna

Country: India

- Conducted an in-depth analysis of cultural values, practices, and their environmental implications in Patna City as part of a dissertation project.
- Investigated the role of cultural heritage, traditions, and festivals in shaping community identity and environmental attitudes among residents.
- Demonstrated strong research, analytical, and communication skills through the completion of a comprehensive dissertation on a socially and environmentally relevant topic.
- Presented empirical findings and case study analysis demonstrating the complex interplay between cultural values, practices, and environmental sustainability.
- Utilised qualitative research methods, including interviews, surveys, and participant observation, to gather data on cultural dynamics and environmental behaviors.
